# WHY VOTE?

## A GUIDE ON HOW TO MAKE A CHANGE

Around the world, many forms of social injustice can be seen. From rigged elections to the increase in inflation, I believe that we must find a solution before it's too late.

### ENVIRONMENT

As business goes around the world, the environment gets directly affected by these improper practices done by corporations. By voting, we can help regulate these practices.

### ECONOMY

Currently, there is a conflict in terms of dollar to peso in the Philippines. We are expecting to reach an all time high of \$1-60 PHP. By choosing wisely, this can be stopped before it's too late.

### HUMAN RIGHTS

The Philippines is facing a dilemma of the violation of human rights. Officials who are thought to be righteous are instead abusing their power and killing the innocent. We can stop this by making a mark on the ballot.

### JOB OPPORTUNITIES

The Philippines is suffering from the lack of manpower due to the low wage and tremendous amount of hours put into the work environment. But we can fix this by making a mark.

### CORRUPTION

The number one problem of the country. Incompetent officials, roundabout laws. Result? No major improvement. By voting the right people, we can cleanse the government and the country.

### POLITICAL DYNASTIES

For centuries, the same families have been monopolizing different regions. But with your vote, this social issue can be changed. No family, yet alone a generation deserves to monopolize power without the vote of the people.

## YOUR VOICE CAN MAKE A MARK.
