I know that our generation is the face of the future. To better help mobilize my peers, I would help organize voter registration drives at mine and my local high schools, and I would also talk to the colleges in my area about their voter drives and how they encourage their students. It may not be 'big' to mobilize a city's worth of high schoolers, but I could get up to 3,000 more voters in the system. The first step to 'big' starts small.

Just now

With Kavanaugh being elected onto the Supreme Court by only ONE vote in the Senate, I think now is a time to reiterate a very important message. EVERY VOTE MATTERS!
