FACTS ABOUT ORGANIC COTTON

Protects the health of others

It cares for the environment

It looks after the workers

Supports wildlife

Great for the skin (no harsh chemicals)

Better for you, the world, and everyone on it.

Avoid TOXIC chemicals in hygiene products

TIPS

1) Choose chlorine-free bleached or unbleached cotton tampons and pads.

2) Eliminate use of products that may be unnecessary to a healthy vagina.

3) Choose unscented products where available (particularly tampons and pads).

4) Reduce your use of feminine care products.

5) If you are having allergic symptoms, switch brands!

WOMEN'S VOICES
FOR THE EARTH

OUR HEALTH. OUR FUTURE. TOXIC FREE.

FIND CERTIFIED PRODUCTS

You can find certified products that are good for your health and the environment. They are easy to find and great to use. Don't waste your money or time investing in expensive products that will harm your health in the future. A very good tip: **GO NATURAL** → use as much as natural products as you can. Also **GO ORGANIC** → organic products are way better for health.
