Your Story 4m

Wait

*You wouldn't
put dangerous
chemicals in
your body right?!*

*Uh yeah
duh*

Your Story 3m

Research shows that
"many feminine products
contain a host of chemicals
that may cause

**cancer, disrupt
hormones, or cause
unnecessary allergic
reactions!"**

...oh

*But I don't see
anything about
cancer or
chemicals here...*

That's because...

Your Story 2m

Madesafe.org

Along with feminine care products it has a list of other safe products for household, personal care, cosmetics, baby etc

Ahhhh I see
