

**How does it smell compared to the products you have used in the past?**

It smells a lot like VINEGAR, we added 15 drops lavender essential oil to change that.

**Ingredients:**

- 1 cup distilled water
- 1 cup white distilled vinegar
- 1/2 lemon juiced (optional)

**Instructions:**

1. Use a funnel, if needed.
2. Pour all the ingredients into a 16oz. spray bottle
3. Gently shake the cleaner.
4. This cleaner will need to be stored in the fridge between uses due to the fresh lemon juice.

**Usage:**

1. Gently shake the spray bottle before spraying the cleaner on the desired surface.
2. Spray the cleaner and wipe off the surface with a damp cloth!
3. Do NOT use the vinegar cleaner on marble or granite.

**aiae0730** Why cleaning green is important to human and environmental health? This products reduce health problems such as asthma, do not contain harmful antibacterial agents, they reduce the risk of accidents using chemicals during elaboration, they are less toxic to marine life, reduce green house emissions and are in general environmentally preferable. @turninggreenorg, @drbronner @women4earth, @madesafehq #PGC2018 #GreenClean.
