Envo Con

- **Describe your project. What do you want to accomplish?**

- I want to bring environmentalist together in a creative and open environment. I want to create an event that is accepting and helps inform others of what is going on. There will be many speakers, insperationalists, and teachers that will present their ideas and show their perspective on how the Earth works, is, and how it can change. It will use current technology like VR, AR, and video games (<https://www.mobilizegreen.org/blog/2014/7/10/environmentally-minded-video-games>) to catch the attention of gamers and the technologically cerious. There will be bands such as the ones listed on <http://www.thedeadtrees.com/25-green-musicians-and-bands/>. There will aslo be booths for authors and artests who create works that inspire and inform about the planet. Not just normal books but comics and graphic novels too (<https://www.publishersweekly.com/pw/by-topic/industry-news/comics/article/66015-go-green-with-14-great-environmental-comics.html>). This will atract people of the arts. Finally there would be a huge hall of vendors that sell natural goods such as the ones many of the sponsers of the Project Green Challenge do and businesses that are Fair Trade certified.

 <p>Virtual Reality: See how the world would be if everyone lived like you.</p>	 <h1>Envo</h1>  <h1>Convention</h1> <p>A gathering for all to inform and inspire.</p>  		<p>\$-- Per Day \$--Three Days \$--VIP per day \$-- Full VIP</p> 
<p>Three days full of engaging and inspirational people.</p>	<p>Comics, Books, Shows, Movies, Art and Music.</p> <p>All the creative spirit could crave.</p> <p>Website</p>  <p>100'S of vendors that are Fair Trade certified, Organic, and all natural.</p> <p>Every label speaks the truth here.</p>		<p>VIP includes an all organic vegetarian dinner for 2 nights and full access to the whole convention.</p>

How I see the future of this convention:

In the future I am running the 6th convention of the year in New York City either at Jacob K. Javits Convention Center or AMA Conference Center New York. I see hundreds of people, some using VR and AR to see their impact on the world based on decisions. I see a convention that joins environmentalist with everyday people even gamers. I see an area where people don't come to judge they come to learn and to see that you don't have to be rich or make big life adjustments to make a change.

This image is a really rough draft of a flyer I would put up for a convention I would love to do. I really enjoy running large events (even if I get super stressed). I would love to see all different types of people come together in one area over a common interest and goal of protecting and preserving the wonderful world we live in. Hopefully one day in the future this will become a reality and I can invite you to come and see the change that can be!
