Social Media Post:

The image shows an Instagram post from the account 'green.bearz'. The post features a central graphic with a news article snippet. The article title is 'Race is the biggest indicator in the US of whether you live near toxic waste' and the subtitle is 'Race Best Predicts Whether You Live Near Pollution'. Below the title, it says 'Environmental racism extends far beyond Flint' and 'By Bryer Green'. The background of the graphic is a photograph of a hand holding a crumpled plastic water bottle. The background of the entire post is a dark, textured surface with faint, vertical, red text that reads: 'nearly every piece of plastic EVER MADE still in 5 water bottles are recycled there is a running 3 BILLION POUNDS of waste from plastic water bottles gain about 38 billion plastic water bottles NOT RECYCLED almost 90% of plastic water bottles are NOT RECYCLED'. At the top left of the post is a circular profile picture of three people and the username 'green.bearz'. At the top right are three dots. At the bottom of the post are icons for a heart, a comment bubble, a share arrow, and a bookmark. Below these icons is the caption text.

**green.bearz** Environmental justice is social justice, and climate change only exacerbates existing social inequalities. We must do our best to take climate action to seek a socially just future! 🌍♻️ (original, digital art created on Adobe PhotoShop) @turninggreenorg #PGC2020 #greenbears
