

## DAY 22: COLLEGE

NAME: THE GREEN POWER GIRLS  
SCHOOL: ANAHUAC MAYAB UNIVERSITY

OUR GRADE FOR OUR SCHOOL IS: **9.5**

### **How is your school performing?**

Anáhuac Mayab is a university that offers its students an excellent academic preparation and the necessary support to guide their life and the exercise of their profession in the search for their own good and the common good, and find in it an authentic personal and family fulfillment. , professional and contribute to social and community development. For the PGC, the 1st semester students of Ecology divided into teams to participate in the project throughout the month. From working from home, to doing recreational activities in our school in search of sustainability and a change for the planet.

### **In what areas does it excel?**

Anahuac stands out in various areas such as leadership (entrepreneurship), social commitment, Sports: Soccer, tennis, table tennis, basketball and athletics; Art and Culture, but especially in Ecology, stands out for having implemented many pro-active actions to the environment and for the good sustainable development of the entire Anahuac University Network.

### **Where is there room for improvement?**

In the area of Ecology and environment. The school facilities have innovated by implementing sustainable energy and adapting to the proper functioning of waste. Giving environmental talks to his students, informative webinars about the environment and quite large conferences, implementing actions such as recycling and waste management, protecting their green areas, putting water dispensers for all students and thus avoiding plastic bottles.

Some other actions that we can take as a school are recycling, recycling points in the school, a second hand clothing bazaar where any student can sell / buy clothes, ecological clubs for cleaning beaches, gardens, green areas, a campaign to the planting of trees, flowers and more vegetation in the university, zero waste workshops,

on how to start life without waste, how to separate waste, make an eco-brick, behave, create a garden, among other actions to inspire!
