

College	Frostburg State University
Occupants	4000 to 4500
Division	II

President	Dr. Ronald Nowaczyk
Address of School	101 Braddock Road

PGC Themes	Grade	Comments	Recommendations	Potential Programs or Activities
Zero waste	D	Lots of plastic bags used. Not all dorms have recycling bins, specifically mine. 1 guy does all the recycling on campus.	Give students a bag at beginning of semester to use for bought objects from food center. Place recycle bins in all dorms, and outside between locations. Hire more people to recycle.	We have two sustainability classes on campus. Maybe divide these courses into subdivisions based on the 3 pillars, and a course on the technicalities and business of recycling.
Biodiversity	B	Variety of plants grown in some locations on campus, but mostly has open spaces of grass. Arboretum is well taken care of, and has many animals, even bears at times.	Grow a diverse array of local flowers in sites not adjacent to dorms. This would attract more birds and insects.	There could be a club focused on campus biodiversity and plant growth, or you could have advertised events where students could help plant.
Wellness	B+	There are many emails about services for self-help and mental health. Many activities are offered, but not sometimes they falter.	Adapt a platform of activity promotion that is not email reliant. Have RA's put up notes, or have a communal whiteboard that would list these things in places people would have to see them.	I believe we have a course on self-care as an intro; but if there's a group for this already, it should advertise more.
Urban Ecology	C	There is a lack of trees in certain areas on campus. Heavy salts that are disproportionately placed in Winter could cause damage to the trees.	Open spaces are fine, but maybe add a few trees in some locations. Having plants inside dorms, such as in common areas, would be	We have a class on forest ecology, I think a course on urban ecology, with all its niches, would be interesting.
Food Waste	B	We have a compost, but a lot of food gets wasted in the cafeteria since we can't take food from it.	Unless it's for legal reasons, allow people to take food from the cafeteria.	I don't think 1 club could solve this, but multiple or constant reminders and activities to combat food waste could be held.

Frostburg State University

xaxzotal We are at the first 1/4 of the school year, so here's FSU's PGC report card!
Maybe a little bit more study time is needed?
Do good in most things though.
